

### TECHNICAL SPECIFICATIONS

#### Composition

- Thermally bonded nonwoven made from 100% PES staple fibres
- Fibre content from recycled PET bottles: approx. 60%
- Minimum sorption moisture around 1.02% according to DIN 52620
- Fungus resistance (DIN EN ISO 846:2019)
- Resistant to vermin infestation and house dust mites
- Skin friendly
- Recyclable
- Allergen-free
- Oeko-Tex Standard 100 certified
- No chemical additives

#### Reverberation space and measurement method :

- Measurement method :** Noise off
- Volume reverberation space :** 391,6 m<sup>3</sup>
- Temp. measurement empty :** 21,6 °C
- Rel. LF measurement empty :** 55,0 %
- Air pressure with specimen :** 98,4 kPa
- Room surface reverberation space :** 322,2 m<sup>2</sup>
- Temp. measurement with specimen :** 21,5 °C
- Rel. LF measurement with specimen :** 47,8 %
- Empty air pressure :** 98,4 kPa

**Thickness** 20mm

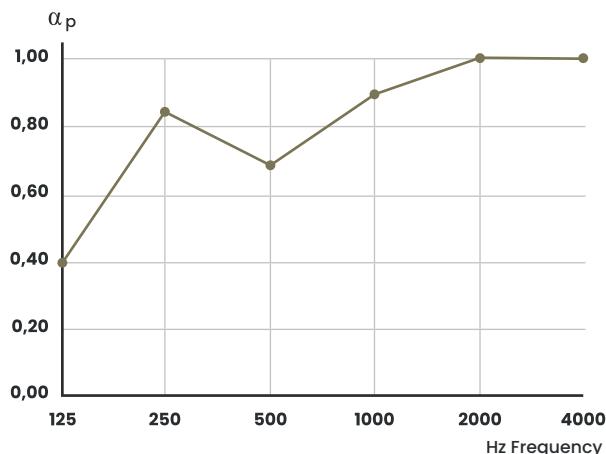

**Surface mass** 2,4kg/m<sup>2</sup>

Peripheral finish **Aluminum - 40-year warranty on material and color**

Classification of fire behaviour according to DIN EN 13501-1:2018 → B-s1, d0

Measurement of the sound absorption coefficient according to DIN EN ISO 354:2003-12

Hz Frequency	125	250	500	1000	2000	4000
α <sub>p</sub>	0.40	0.85	0.69	0.89	1.00	1.00

α <sub>w</sub>
0.85
